Important Message

IMPORTANT MESSAGE CONCERNING THE USE OF MAPKING BY VEHICLE DRIVER

TO ENSURE SAFE DRIVING, WE STRONGLY ADVISE THAT A DRIVER SHOULD NOT OPERATE MAPKING WHILE DRIVING. A DRIVER SHOULD NEVER FOCUS HIS OR HER ATTENTION ON THE MAPKING DISPLAY WHILE DRIVING.

In case MapKing needs to be used inside a vehicle, we suggest that it should be operated by a passenger other than the driver or the driver should stop the vehicle at a convenient spot before starting to use MapKing.

IMPORTANT MESSAGE CONCERNING ROUTE PLANNING

The route planning function of MapKing is ONLY meant to be and should ONLY be used as a crude reference. IT SHOULD NEVER BE USED TO DETERMINE ACTUAL DRIVING DIRECTIONS. The route planning function of MapKing is subject to the following limitations:

Whilst we have taken great care and endeavors in developing the product, we CANNOT guarantee that the road network data and routing calculations of MapKing are free of any omission or defect or are up-to-date.

The road network and traffic conditions in the real world are ever changing; MapKing being a pre-packaged product cannot reflect all these changes on a constant basis.

Road network parameters specifically required for route planning, like one-way traffic indicator or turn restrictions at street crossing, are difficult or almost impossible to obtain for China or some other Asian countries. The lack of these data would significantly affect the performance of route planning.

The Company takes no responsibility for all losses and damages arising from the use of this product, agreement to which is deemed given by the user upon the commencement of operation of the system.

IMPORTANT MESSAGE CONCERNING GPS TRACKING

The GPS tracking function of MapKing works on GPS satellite signals broadcasted for civilian use. It is subject to inherent signal deviations and environmental interferences caused by surroundings and bad weather. We cannot guarantee nor specify a precise level of accuracy for the GPS positioning data displayed by MapKing. It should also be noted that the United States Department of Defence, who builds and operates the GPS system, is free to turn off or down-grade the civilian signals of GPS during rare occasions like regional military conflict. Although MapKing should work with most GPS receivers on NMEA0183 signal output format regardless of their brand name or model; we cannot guarantee that MapKing integrates flawlessly with ALL GPS receivers available in the market.

Disclaimer

Map Detail Disclaimer

Map content (including direction, telephone number, address etc) may be changed from time to time and may not be accurate. Please stop using outdated map content. Map content in this CD will not be updated automatically and can only be used as reference only. Please do not rely solely on the map content for navigation. If you have doubts, please check content before use.

GPS/ AGPS Performance and Cost Disclaimer

The connection time for GPS/ AGPS varies depending on factors like environment and weather. Your device must support packet data transmission for the connection of AGPS. You may be charged by your network service provider for data transmission when utilizing AGPS. Note: Roaming charges may apply when using A-GPS in roaming network. Please contact your network service provider for data service and charging details.

1 Introduction

1.1 Product Description

Thank you for using MapKing!

MapKing is the first pan-region multilingual mobile mapping system in Asia managed by MapAsia.com Limited with input from leading Asian partners. It is a great tool for trip planning and to explore the huge potential market in Greater China and Asian countries (maps sold separately for different OS and language). MapKing is the first digital map provides English road name and place name in China and Asian cities. MapKing has firmly established market leader status as the bridge between western travelers and the rapid growing cities in East.

1.2 Software Version

Product name: MapKing 2007 (S60 Version)

Software version information: Refer to 'Options' > 'About'

1.3 MapKing 2007 Features

- 2D/ 3D Navigation
- Multiple search modes
- Manage POI and history
- Real-time tracking of GPS position
- Route planning
- Avoidance to find alternative route
- Intelligent voice assistance
- Dial function
- Send SMS/ MMS location message
- High quality digital maps with latest map database

2 Installation

2.1 Product Installation

Installation of MapKing 2007 includes 2 parts:

1. Installation of main program.
2. Installation of map data.

2.1.1 Installation of Main Program

MapKing2007 has already installed at 'Phone Mass Memory', users needn't install again.

If users need to reinstall MapKing2007, users can download from the below link: http://www.MapKing.com

1. In http://www.MapKing.com , please choose "Registration".
2. Please follow the instruction of the webpage, input your Moblie IMEI and submit.
3. Download link for the 'MapKing2007_S60' will display.
4. After download, please connect your N95 8GB to PC, and copy 'MapKing2007_S60.sis' file to mass memory
5. Press 'Menu' > 'Tools' > 'File mgr.' > choose mass memory > run 'MapKing2007_S60.sis'.
6. Please install the Program in 'Phone memory'.

2.1.2 Installation of Map Data

MapKing2007 has already installed at 'Phone Mass Memory', users needn't install again.

If users need to reinstall MapKing2007, users can download from the below link: http://www.MapKing.com

1. In http://www.MapKing.com , please choose "Registration".
2. Please follow the instruction of the webpage, input your Moblie IMEI and submit.
3. Download link for the MapKing2007 map file will display.
4. Unzip 'MapKing' folder, Copy 'MapKing' folder to mass memory root folder.

2.2 Launch MapKing 2007

MapKing 2007 is launched in the similar way like other software. Press ‘Menu’ > ‘Installations’ > launch ‘MapKing 2007’.

2.3 Exit MapKing 2007

Press ‘Options’ > ‘Exit’ to close MapKing 2007.

2.4 Remove MapKing 2007

Close MapKing 2007, press ‘Menu” > ‘Tools’ > ‘App. Mgr.’ > choose ‘MapKing2007’ > ‘Options’ > ‘Remove’.

3 Registration

3.1 Product Registration

Start MapKing 2007, a registration message box will pop up. The product has 3 days trail period. After the trial period, you need to register in order to activate MapKing 2007. The registration includes 3 steps.

3.1.1 Obtain IMEI

There are 3 ways to obtain IMEI:

1. Launch MapKing 2007 > press ‘Submit’, the IMEI* will be displayed on the screen.
2. Press ‘Options’ > ‘Software Activation’ > ‘Submit’, the IMEI* will be displayed on the screen.
3. When the phone is in stand by mode, press *#06# to get IMEI*.

*IMEI is a unique number given to every single mobile phone. In case there is a change of the IMEI due to hardware problem, ROM upgrade or other reasons, please contact MapKing support at support@mapasia.com.

3.1.2 Obtain Registration Code online

1. Please go to http://www.MapKing.com.
2. Choose ‘Registration’.
3. Input the IMEI, you can get a Product Authorization Code.
4. To registration, input information requested and submit. You will get a Registration Code.

3.1.3 Input Registration Code

1. Launch MapKing 2007 > Press ‘Submit’ > ‘OK’.
2. Input Registration Code.
3. If Registration Code is correct, the screen will show registration success*.

*If the Registration Code is invalid, please contact MapKing support at support@mapasia.com.

4 Basic Functions

4.1 Main Menu

Destination: Select a destination.

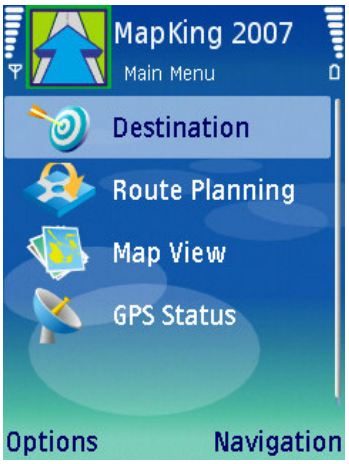
Route Planning: Create and fine-tune a route.

Map View: Turn on the map display window.

GPS Status: Displays status of GPS fix.

Options: GPS Settings, System Settings, Help, About and Software Activation.

Navigation: Start navigation.



《4-1a》Main Menu

4.2 Map View

GPS position will not be refreshed in Map View.

Enter Map View and press Options:

Last GPS Location: Show last GPS location.

Select Region: Show selected region.

Set Routing Point: Set as Destination, Start & Midway Pt.

Search Nearby: Search nearby POI from GPS location.

Set As: Set as My Favorite or Home.

Send: Send SMS/ MMS location message.

Enter Coordinates: Enter coordinates to search.

Direction: Pan map.

Scale: Zoom in or out.

Help: Map View help.

Exit: Exit MapKing 2007.

《4-2a》Map View.

Use numeric key to pan map:

Pan: Use numeric key 1, 2, 3, 4, 6, 7, 8 and 9 to pan map.

Switch pan mode: Use numeric key 5.

Zoom in: * key.

Zoom out: # key.

1	2	3
4	5	6
7	8	9
*	0	#

《4-2b》Numeric key.

4.3 Send SMS/ MMS location message

4.3.1 Send SMS/ MMS location message

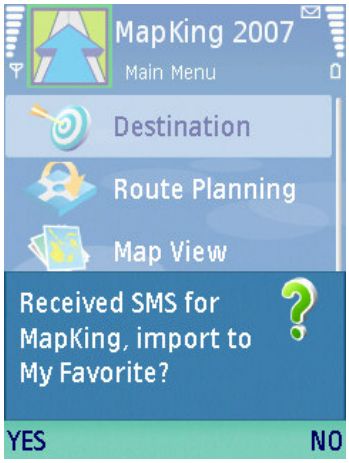
In ‘Map View’, press ‘Options’ > ‘Send’ > ‘Map Center(SMS)’ or ‘Current Map(MMS)’ > enter phone number > ‘Options’ > ‘Send’.

《4-3-1a》Send SMS location message.

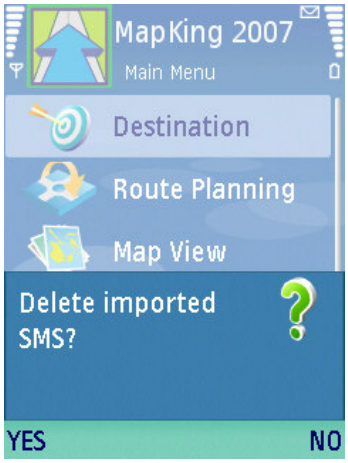
《4-3-1b》Send MMS location message.

4.3.2 Receive SMS/ MMS location message

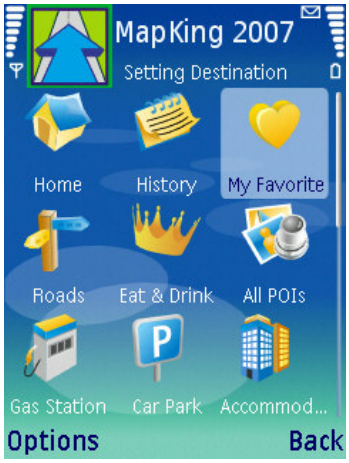
Every time you launch MapKing 2007, system will read MapKing location message in Inbox.



《4-3-2a》Choose whether import MapKing location message to My Favorite.



《4-3-2b》Choose whether delete MapKing location message in Inbox.

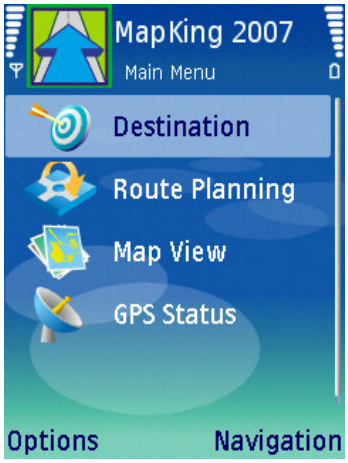


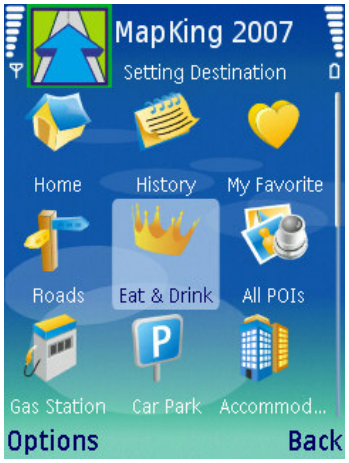
《4-3-2c》If choose import MapKing location message, press ‘Destination’ > ‘My Favorite’.

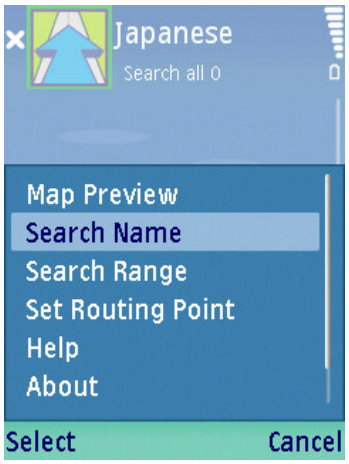
《4-3-2d》Manage imported MapKing location message.

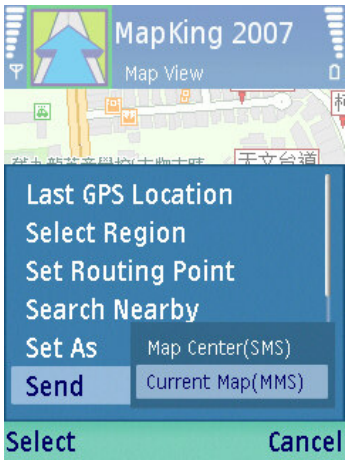
Example: Send A 日本料理, 諾士佛台 location to friends via MMS.

'Destination' > 'Eat & Drink' > > 'Asian' > 'Japanese' > 'Options' > 'Search Name' > enter A 日本料理 > choose A 日本料理 > 'Options' > 'Send' > 'Current Map(MMS)' > enter phone number.









Above pictures are devised for marketing display purpose only.

4.4 Set Destination

There are 2 ways to set Destination:

In search result

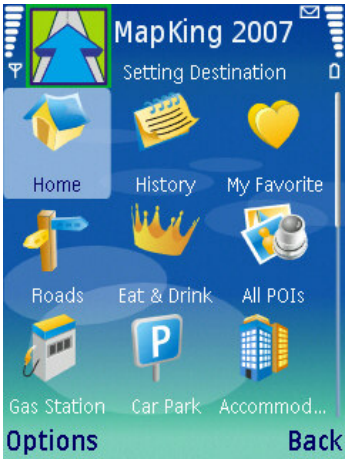
《4-4a》In search result, press ‘Options’ > ‘Set Routing Point’ > ‘Destination’ enter Navigation.

In Map View

《4-4b》In Map View, press ‘Options’ > ‘Set Routing Point’ > ‘Destination’ enter Navigation.

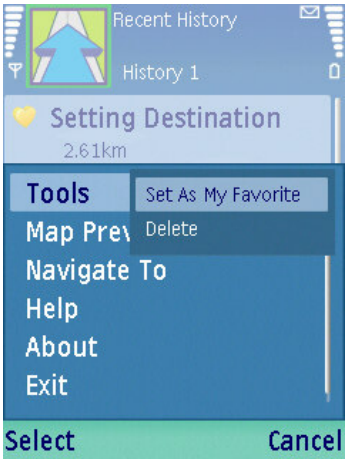
There are various search methods in MapKing 2007.

Home: It offers a shortcut to plan route to ‘Home’ set in ‘My Favorite’.



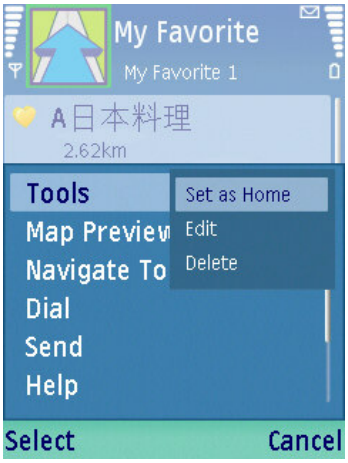
《4-4c》Set Destination.

History: It is a quick way to access POI you had previously set as Destination. Press ‘Options’ > ‘Tools’ manage History.



《4-4d》History.

My Favorite: It maintains a list of all self-created favorite locations that can be quickly marked as Destination for route planning. Press ‘Options’ > ‘Tools’ manager My Favorite.



《4-4e》My Favorite.

Roads: Enter road name to set Destination. In search result, choose Search Range to narrow search result. Please refer to 'POIs' search method《4-4o》.

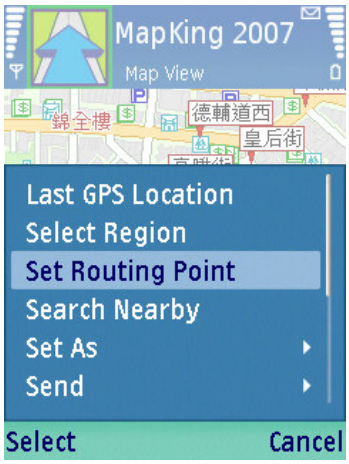
《4-4f》Enter road name.

《4-4g》Choose a record.

《4-4h》Enter doorplate and press 'Find'. If no doorplate information, press 'Preview' and jump to《4-4j》.

《4-4i》Choose a record.

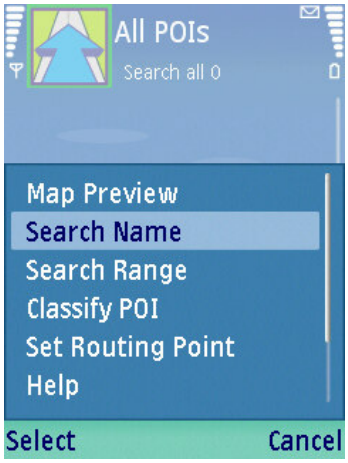
《4-4j》Map Preview.



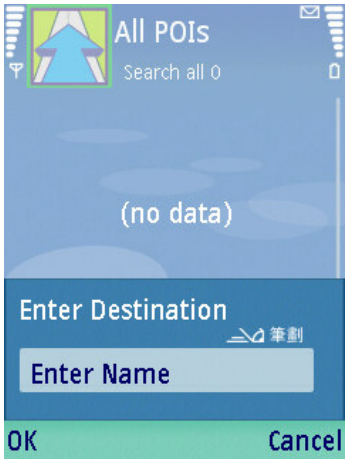
《4-4k》Press 'Options' > 'Set Routing Point'.

《4-4l》Press 'Destination' > 'OK'.

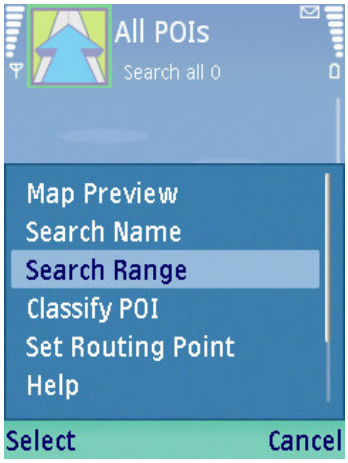
POIs: It presents a list of nearby POI for quick selection as Destination. In search result, choose Search Name《4-4m》 or choose Search Range《4-4o》 to narrow search result.



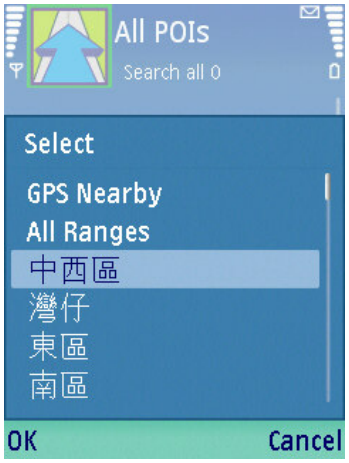
《4-4m》Press 'Options' > 'Search Name'.



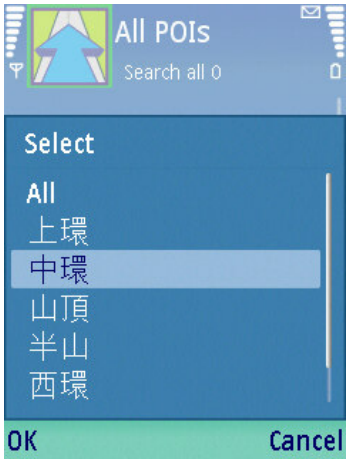
《4-4n》Enter name.



《4-4o》Press 'Options' > 'Search Range'.



《4-4p》Choose 1st level district.

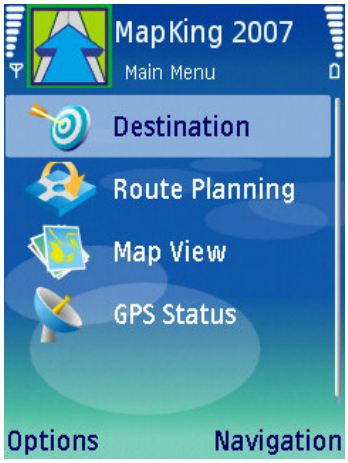


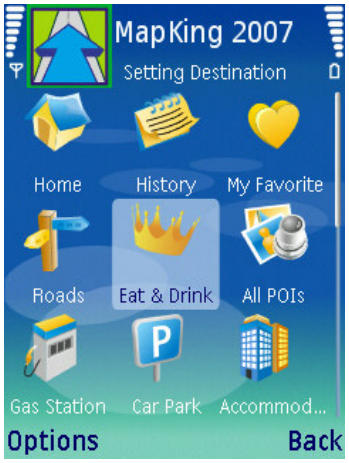
《4-4q》Choose 2nd level district.

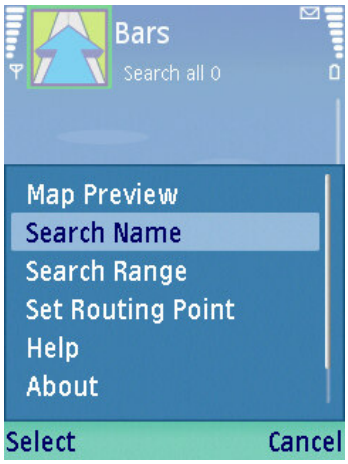
Others: User can choose other POI categories to narrow search result. Other POIs include Gas Station, Car Park, Accommodation, Shopping, Entertainment, Bank, School, Government, Buildings, Bus/Railway, Sports, Hospital, Park and Church/Temple.

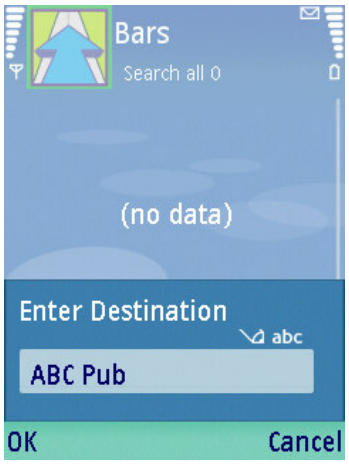
Example: Navigate to ABC Pub, Lan Kwai Fong.

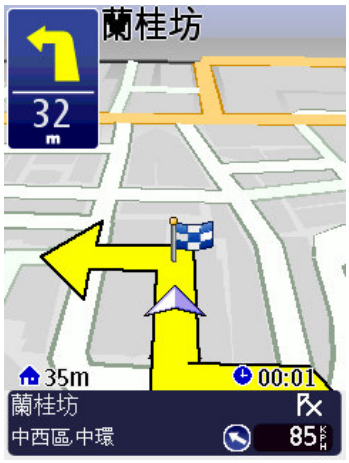
'Destination' > 'Eat & Drink' > 'Bars' > 'Options' > 'Search Name' > enter ABC Pub > choose ABC Pub > 'Options' > 'Set Routing Point' > 'Destination'.











Above pictures are devised for marketing display purpose only.

4.5 Set Start Point

There are 3 ways to set Start Point:

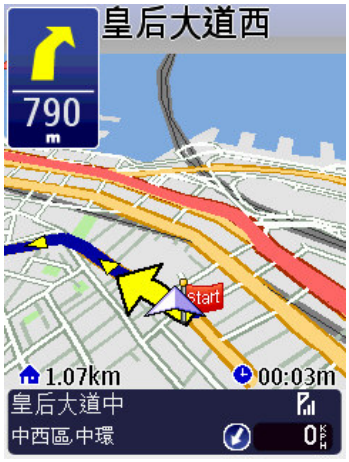
In search result

《4-5a》In search result, press 'Options' > ' Set Routing Point' > 'Start Point' enter Navigation.

In Map View

《4-5b》In Map View, press 'Options' > 'Set Routing Point' > 'Start Point' enter Navigation.

In Navigation



《4-5c》Enter Navigation, system will set GPS location as Start Point automatically.

4.6 Dial Function

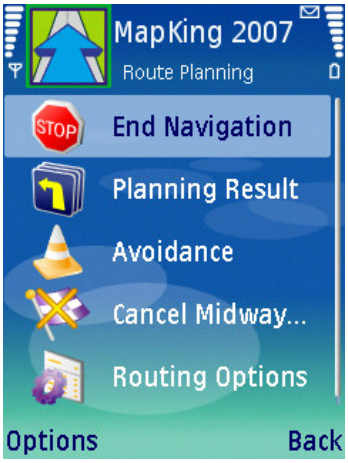
In ‘POIs’ or other POI categories, if the POI has telephone number, there will be a telephone icon shown beside it. Press ‘Options’ > ‘Dial’ to dial.

《4-6a》Dial function.

4.7 Route Planning

To initiate route planning, at least 2 routing points (Start Point and Destination) must be assigned.

The route planning function of MapKing is ONLY meant to be and should ONLY be used as a crude reference. IT SHOULD NEVER BE USED TO DETERMINE ACTUAL DRIVING DIRECTIONS.



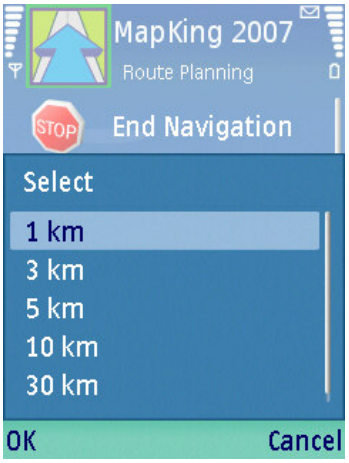
《4-7a》Route Planning.

End Navigation: Delete current Destination.

Planning Result: Show current route planning result list. Press 'Options' > 'Simulation' to start simulation.

《4-7b》Planning result.

Avoidance: Find an alternative route bypassing the traffic.



《4-7c》Avoidance.

Cancel Midway Point: Delete Midway Point.

Routing Options: Choose route planning scheme.

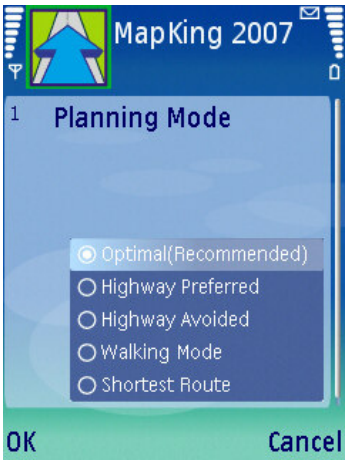
Optimal(Recommended): Use this option for car navigation.

Highway Preferred: Assigns high priority to expressways and highways and avoid secondary roads and streets.

Highway Avoided: Avoids expressways and highways.

Walking Mode: Ignore road direction and avoids expressways and highways.

Shortest Route: Ignores road class parameters and calculates routes purely on length of road.



《4-7d》Routing options.

4.8 Simulation

MapKing 2007 provides more than result and paths. We also provide 2D/ 3D simulation. After Start Point and Destination have been created, with the routing result you may simulate the course of the planned route and have further adjustment. Press ‘Rout Planning’ > ‘Planning Result’ > ‘Options’ > ‘Simulation’ to start simulation.

《4-8a》Press ‘Options’ > ‘Simulation’ to start simulation.

4.9 Navigation

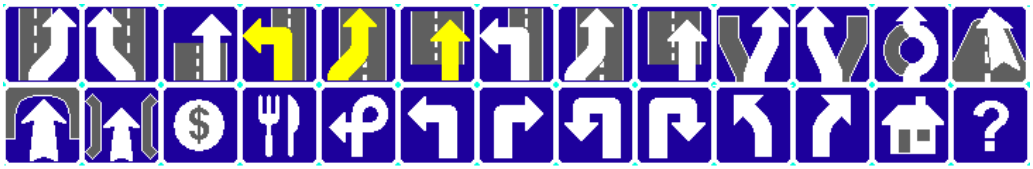
Press ‘Options’ to switch navigation mode and press ‘Back’ back to Main Menu.

《4-9a》3D navigation.

《4-9b》2D navigation.

1. Next turn indicator
2. Distance to next turn
3. Distance to destination
4. Current street name
5. Estimate time to destination
6. GPS status
7. Recommended path
8. Current position
9. Direction of destination
10. Current speed

The road sign defines in MapKing 2007 (from left to right):



《4-9c》Road sign.

Upper row (from left to right)		Lower row (from left to right)	
1.	Leaving expressway along the right lane	14.	Entering tunnel ahead
2.	Leaving expressway along the left lane	15.	Entering bridge ahead
3.	Leaving expressway	16.	Tollgate
4.	Entering expressway along the left lane	17.	Rest area
5.	Entering expressway along the right lane	18.	Interchange
		19.	Turn left at intersection ahead
6.	Entering expressway	20.	Turn right at intersection ahead
7.	Entering freeway along the left lane	21.	U-turn to the left at intersection ahead
8.	Entering freeway along the right lane	22.	U-turn to the right at intersection ahead
9.	Entering freeway	23.	Stay on the left
10.	Stay on the right lane	24.	Stay on the right
11.	Stay on the left lane	25.	Distance to destination
12.	Entering interchange	26.	Please set destination
13.	Entering elevated road		

4.10 GPS Status

GPS signal:

GPS signals that are strong are displayed in blue. GPS signals that are not strong enough are displayed in red.

Altitude: Current altitude.

Speed: Current peed.

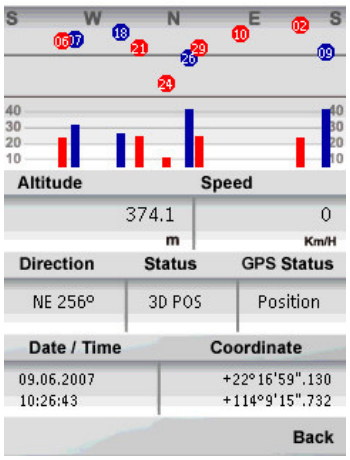
Direction: Estimate direction heading from last position.

Status: 2D/ 3D positioning.

GPS Status: GPS status.

Date/Time: Date and time (GMT+8).

Coordinate: Latitude and longitude coordinates.



《4-10a》GPS status.

You may be charged by your network service provider for data transmission when utilizing AGPS. Note: Roaming charges may apply when using A-GPS in roaming network. Please refer to your network service provider for charges and your device manufacturer for the functionality.

5 System Setting

5.1 GPS Settings

GPS (Global Positioning System) is developed and maintained by the US Defence Department. The system was initially deployed for military use but was later open for civilian navigation. The system comprises of more than 24 satellites on different orbits. The GPS receiver on the ground picks up signals from at least three satellites and calculates its real time position by a set of mathematical formulas generally known as 'triangulation'.

GPS receivers must maintain line-of-sight with the satellites. GPS will not work indoor and its accuracy tends to degrade significantly when the receiver is located under sheltered area or near high-rise building structure or terrain.

GPS Fixed: Turn on or off GPS.

GPS Detection: Choose GPS detection sensitive or stable.

《5-1a》In Main Menu, press 'Options' > 'GPS Settings'.

5.2 System Settings

Display Style: Switch map display style.

Day / Night Mode: Switch day or night mode.

Map North Up: Choose head north up or north up.

Map Auto Scale: Choose auto scale or manual scale.

Interchange Info: Choose on or off interchange info.

Voice Settings: Switch voice assistance.

Disclaimers: Choose on or off disclaimers.

《5-2a》In Main Menu, press 'Options' > 'System Settings'.

6 Support and Service

6.1 Hardware Support

Please refer to your GPS manufacturer.

6.2 MapKing 2007 Software Support and Service

Please send detailed description of the problem you encounter, Product Authorization Code and IMEI to support@mapasia.com.
